

# Dickinson Refinery

## Overview

Marathon Petroleum Corp.'s (MPC) Dickinson refinery is located four miles west of Dickinson, North Dakota. The refinery has a crude oil capacity of 19,000 barrels per calendar day (bpcd). The Dickinson refinery primarily processes domestic crude oil from North Dakota and manufactures ultra-low sulfur diesel and gasoline blendstocks, which are distributed by truck and rail.

MPC plans to convert this refinery into a 12,000 bpcd, 100 percent renewable diesel facility, which will process refined soy oil and other organically derived feedstocks, by December 2020.

## Health, Safety & Environment

- > The refinery is a state-of-the-art facility utilizing modern emission-control technology
- > Utilizes recycled water from the city of Dickinson's wastewater treatment plant

## Community

- > Richardton Rural Fire Department - replacement of self-contained breathing apparatus
- > Western Wellness Foundation – supporting the Crisis Shelter
- > American Red Cross – West Dakota Chapter 2018 – 2019 home fire campaign

### Quick Facts

EMPLOYMENT: Approximately 90 employees

REFINING CAPACITY: 19,000 bpcd
