

El Paso Refinery

Overview

At Marathon Petroleum Corporation (MPC) we're working to enhance life's possibilities. Every day we live our core values of safety & environmental stewardship, integrity, respect, inclusion and collaboration. By reliably providing affordable, safe and abundant energy from coast-to-coast, we look to power today. We're inspired to make tomorrow even better, and we're just getting started.

Our El Paso refinery is located approximately three miles east of downtown El Paso, Texas. The refinery was originally two facilities with the north portion built by Chevron in 1928, and the south portion built by Texaco in 1931. The operations of both sites were modernized over the years, and the two plants were combined in 1993. The refinery has a crude oil refining capacity of approximately 133,000 barrels per calendar day (bpcd). The refinery processes sweet and sour crudes into gasoline, distillates, heavy fuel oil, asphalt and propane and has access to the Permian Basin shale region. Products are delivered from the El Paso refinery by truck, rail, and pipeline.

Health, Safety & Environment

At MPC, the health and safety of our employee, contractors and communities we call home is a priority. We take steps to ensure an accident-free, incident-free workplace. We've implemented cutting-edge safety measures at the refinery, and are recognized as an industry leader.

At the same time, we are passionate stewards of the environment, engaged with multiple organizations to implement initiatives that protect our environment and inspire responsible practices for future generations. Below is a list of accolades and accomplishments earned by our El Paso refinery.

- > One of the first refineries in the U.S. to install a wet gas scrubber to reduce emissions
- > Installed flare gas recovery system, eliminating continuous waste gas flaring
- > Implemented process advancements to significantly reduce Sulphur and benzene in fuels
- > On-site lab certifies finished products to meet all government specifications and regulations
- > Enforcement of a disciplined framework that includes comprehensive design, engineering, operating and maintenance practices. Industry-recognized methodologies used to assure process safety and asset integrity, and to reduce the risk of incidents.

Community

We believe in responsible citizenship, and are actively involved and engaged in the El Paso community. At MPC, we know that community is important. We make it a priority to offer time, talent and financial support for efforts that have a positive impact on the community through science, technology, engineering and math (STEM) related concepts and careers; that make our communities safer places to live and work; and that protect, conserve and sustain our environmental resources. Listed below are some of our partner organizations.

- > Provide \$700,000 in annual community investment funds to non-profit organizations in El Paso and the Permian Basin
- > Executed \$194,000 in grants to the City of El Paso and El Paso for public safety and first responders.
- > Developed a Partners in Education program and provided approximately \$300,000 in grants for science, technology, engineering and math (STEM) education programs in multiple schools within the El Paso and Socorro Independent School Districts.
- > Provide substantial funding for basic community needs for organizations such as food banks, homeless shelters and various non-profit services.

Quick Facts

EMPLOYMENT: Approximately 420 employees

REFINING CAPACITY: 133,000 bpcd
